ARRIAGA MARTÍNEZ

ALAN EDUARDO

Software engineer

Education

Computation Systems Engineering | Superior School of Computer Sciences (ESCOM, IPN) 

Aug 2017 - Jan 2022

Projects

Minesweeper | In Development

Game created in React using TypeScript, HTML5 and SASS to prove my skills about all my knowledge in React and Google drive storage.

This is one of my most recent projects managed by Netlify and i am really proud of the final result.

Questionledge | In Development

Question and answer manager, created with PHP, JavaScript, Bootstrap and CSS3 for the styles, Postman to handle the requests and SQL database.

Simple app to improve my programming skills and the use of Heroku.

To do list | Apr 2021

Task manager crated in React using TypeScript, HTML5 and SASS, developed like a review of hooks implementation and local storage.

Using GitHub pages to give live to this beautiful and awesome app.

Breaking Bad page | Apr 2021

App that shows all the characters of one of my favorites series, created with TypeScript and SASS using Parcel, website made it to learn about the use of API, how to handle asynchronous process and white and dark theme implementation.

Skills and more

Programming languages

2 years: C / C++, Java

6 months: JavaScript, PHP

2 months: Python

Technologies

Abode XD

ReactJS
